PROFILE

Career changer seeking an entry-level cyber security role, with hands-on bootcamp training in networking, secure device configuration and connectivity troubleshooting. Practical experience with Cisco Packet Tracer and Wireshark, supported by experience building and deploying live websites. Brings more than a decade of business ownership, client communication and practical problem-solving experience.

CYBER SECURITY TRAINING & PRACTICAL PROJECT

Cyber Security Bootcamp

Practical networking and cyber security training, including Cisco Networking Academy Networking Essentials coursework and a secure business network capstone.

Secure Business Network Deployment | Cisco Packet Tracer

- Configured a simulated two-office network with routers, switches, wired and wireless clients, static IP addressing and DHCP services.
- Applied router and switch access controls, including password protection, authorised-access banners and SSH remote management; verified a successful SSH login.
- Configured WPA2-PSK wireless security with AES and tested connectivity between devices and offices using ping.
- Configured email services and client accounts, tested message delivery, and captured configuration and testing screenshots as project evidence.

TECHNICAL SKILLS

Networking: IPv4 addressing, subnet masks, default gateways, DHCP, wired and wireless networks, router and switch configuration, ping and ipconfig.

Security tools and practice: Cisco Packet Tracer, Cisco CLI, SSH, device access controls, WPA2-PSK/AES and introductory Wireshark packet inspection.

Development and troubleshooting: JavaScript, TypeScript, React, Next.js, HTML/CSS, Git, GitHub, Vercel, REST APIs, environment variables and browser developer tools.

ADDITIONAL TECHNICAL PROJECTS

Live Websites | Independent Development

- **Playground Pantry:** Built and deployed a Next.js website for a school catering company; integrated a contact form and handled environment variables, production troubleshooting and responsive testing. playground-pantry.com
- **Sightline Windows:** Built and launched a local business website using HTML, CSS and JavaScript, with accessible navigation and mobile usability. sightlinewindows.co.uk

PROFESSIONAL EXPERIENCE

Self-Employed Personal Trainer | 2016-Present

- Manage client enquiries, scheduling, programme delivery and long-term customer relationships, communicating clearly and responding to individual needs.
- Review client progress data, adapt programmes and manage day-to-day business administration independently.

Owner, The Pit Gym | 2014-2016

- Founded and managed an independent gym, overseeing operations, finances, client retention and team leadership.

Earlier Employment | 1996-2014: Personal training, delivery driving, installation engineering and machine operation, developing practical troubleshooting, reliability and customer-service skills.

FURTHER DEVELOPMENT

Google Data Analytics Professional Certificate - Coursera: in progress.

Independent study in web development, accessibility, debugging and production deployment.
